

Remarks

Submitted herewith is one complete set (twenty sheets, ten figures) of corrected drawings for filing in the above-identified patent application. Also submitted here is one set of marked up drawings of originally filed Figures 1, 4, and 9, to indicate the reformatting of the figures. No new matter has been entered.

These corrected drawings are in response to the notice of drawing inconsistency with the specification mailed concomitantly with the notice of allowance on July 5, 2007. This complete set of corrected drawings have labels that are consistent with the Brief description of the drawings in the specification.

Specifically, the notice states that Figure 4c is listed in the Brief description of the drawings in the specification, but not contained in the drawings. The several diagrams presented in originally filed Figures 4a and 4b have been regrouped so as to be displayed in Figures 4a, Figure 4b and Figure 4c in the attached set of corrected drawings. A marked up copy of originally filed Figure 4a and 4b is enclosed to illustrate this.

The notice states that Figures 9a-9h are listed in the Brief description of the drawings in the specification, but not contained in the drawings. The several diagrams presented in originally filed Figure 9 has been regrouped so as to be displayed in Figures 9a-9h in the attached set of corrected drawings. A marked up copy of originally filed Figure 9 is enclosed to illustrate this.

The notice states that Figure 1c and 1e are contained in the drawings but not listed in the brief description of the drawings in the specification. In an amendment filed February 23, 2007, (i) the sequences displayed in originally filed Figure 1a were reformatted to be displayed in Figures 1A-1 and 1A-2; (ii) the sequences displayed in originally filed Figures 1b and 1c were reformatted to be displayed in Figures 1B-1, 1B-2 and 1B-3; (iii) the sequences displayed in originally filed Figures 1d and 1e were

reformatted to be displayed in Figures 1D-1, 1D-2 and 1D-3. Thus, originally filed Figures 1c and 1e no longer contained in the drawings. A marked up copy of originally filed Figures 1a-1e is enclosed to illustrate this.

The enclosed new drawings correct these informalities. Favorable consideration of the enclosed drawings is respectfully requested.
